

SPIPA

Native Women's Wellness Program

Date: _____

Dear _____,

We are reaching out because we have made several attempts to contact you by phone regarding important next steps in your care. These may include scheduling a follow-up appointment with your provider, discussing your mammogram results, or arranging additional imaging.

It is very important to follow up after abnormal screenings or test results to ensure timely and appropriate care. Prompt follow-up can help address any health concerns early and support the best possible outcomes.

Please contact our Patient Navigator, _____, at _____ as soon as you are able. We are here to support you and answer any questions you may have.

Sincerely,
